Motivated third-year Software Engineering student at SLTC Research University with a strong foundation in full-stack development and a growing interest in Artificial Intelligence. Proficient in JavaScript, Python, HTML, CSS, and frameworks like React.js, with hands-on experience building responsive, user-friendly web applications. Skilled in problem-solving, version control (Git), and passionate about developing efficient, scalable software. Eager to apply my skills in both traditional software engineering and AI-driven projects, while continuously learning and contributing to impactful, real-world solutions.
